

ACCEPTANCE OF PUBLIC HEALTH SERVICES FISCAL YEAR 2018-2019 ACCOMPLISHMENTS REPORT

*County of San Diego Health and Human Services Agency
Public Health Services Administration
Health Services Advisory Board*

August 6, 2019

ACTION REQUESTED

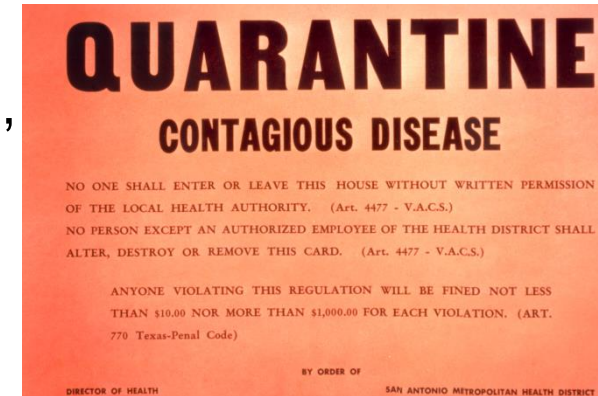

- The HSAB's support and approval for the Public Health Services (PHS) accomplishments presentation for FY 2018-19.
- For almost 170 years, advances in public health have made a difference in the quality of life for San Diego County residents and the public nationwide.

BACKGROUND

- **1850** - San Diego's Board of Health was first established (pop 798)
 - Issues of concern included epidemics of typhus, cholera, and yellow fever
 - A quarantine process was established to combat epidemics of these diseases.
- **1869** - The Board was formed again
 - Prevent the spread of smallpox and other contagious diseases.
- **1876**- The first regular meetings of the Board were commented on in the *San Diego Union*.
 - This board of Health dealt with the unhealthy conditions of water being delivered to citizens.

BACKGROUND

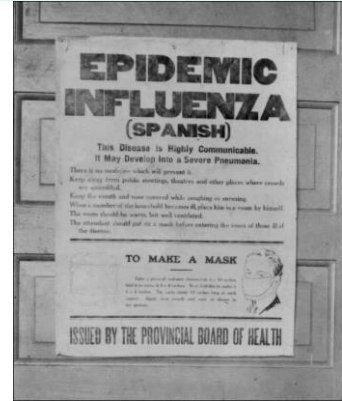

LIVE WELL
SAN DIEGO

- **In 1888**
- People were attracted to San Diego County's mild weather and low pollution.
 - The population exploded to 30,000 people from just 798 people in the 1850's.
- The first Health Department was formed.
 - Tackled new health challenges resulting from the population boom, such as safe food, and clean drinking water.
 - Issued the first annual report of the Health Department, in the fall of that same year
 - Emphasized smallpox vaccination and food safety, along with sanitation concerns in jails and the county as a whole.

In the 1920's

- City formed a Health Department.
- San Diego County's population increased to 112,248.
- San Diego and the entire world recovered from the Spanish Influenza Pandemic of 1918.
 - 368 San Diego County citizens died.
- Vaccinations for diphtheria (1923) and tetanus (1927) were developed.
- Motor vehicle accidents were separately documented in cause of death statistics and in 1927, accounted for the 10th leading cause of death.

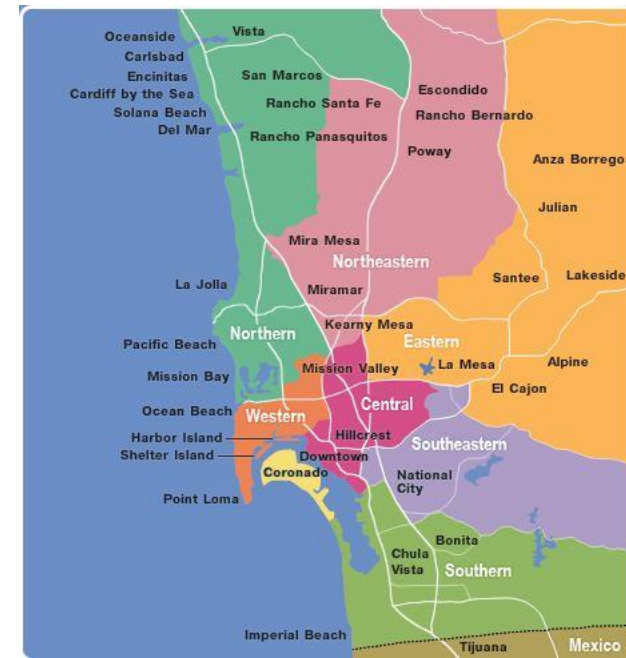

BACKGROUND

In the 1930s - 1950's

- In 1933, a County Department of Public Health was organized.
- In 1953, the City and County departments were consolidated into one.
- From 1930 to 1950, San Diego's population increased from 209,659 to 556, 808 individuals.

- Today, County Public Health Services serves as the local health department for all 18 incorporated & unincorporated areas (which consists of 36 towns).

Public Health Accreditation (PHAB) Board Accreditation

- On May 17, 2016, San Diego County achieved voluntary national accreditation for public health services from the PHAB.
- This signifies conformity with national standards to provide the Ten Essential Public Health Services.
- Accreditation has also been conferred to the HHSA Regions, Department of Environmental Health (DEH), and the Office of Emergency Services (OES), all of which contribute to the efficiency of the County's Public Health system.

STANDARDS OF SERVICE

■ OPERATIONAL EXCELLENCE

- PHS adheres to the following frameworks that enable a high level of systems efficiency and transparency to the general public:

- General Management System
- PHAB 12 Domains
- Baldrige Framework

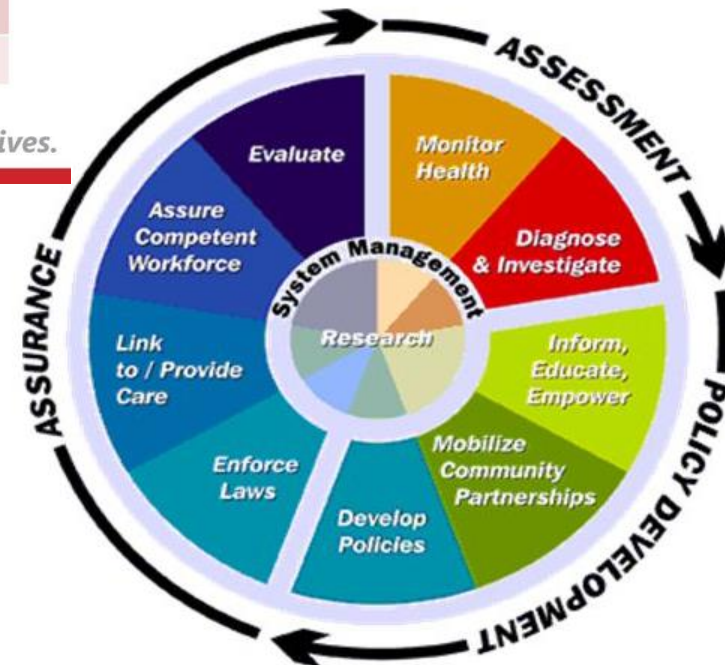

PHAB 12 DOMAINS

Domain	Description
1	Conduct & Disseminate Assessments focused on Population and Public Health
2	Investigate Health Problems & Environmental Public Health Hazards
3	Inform and Educate about Public Health Issues and Functions
4	Engage with the Community to Identify and Address Health Problems
5	Develop Public Health Policies and Plans
6	Enforce Public Health Laws
7	Promote Strategies to Improve Access to Health Care
8	Maintain a Competent Public Health Workforce
9	Evaluate & Continuously Improve Processes, Programs & Interventions
10	Contribute to and Apply the Evidence Base of Public Health
11	Maintain Administrative and Management Capacity
12	Maintain Capacity to Engage the Public Health Governing Entity

We Protect Lives.
